Forecast for Monday 14 Sep 2020

Weather: A foggy start in places, but the fog will lift and clear during the morning, leaving a dry and sunny day. In the sunshine it may feel very warm on any long ascents.

Chance of cloud free mountain/hill tops above 600m: Fog will persist in the valleys until late morning before lifting and breaking up, otherwise 100% with cloud above the summits.

Visibility: Generally very good visibilities across the park, with most hills in sight seen clearly. Visibilities will fall to around 5000m in mist and 100m in fog, possibly making navigation difficult at low levels during the morning.

Forecast for Tuesday 15 Sep 2020

Weather: A few mist and fog patches possible first thing, otherwise a cloudier day compared to Monday, but still some spells of sunshine possible. There could be a few showers around, with the odd thundery shower possible.

Maximum wind: Southeasterly 15-20mph with gusts up to 25mph, winds veering southwesterly 10-15mph during the afternoon.

Chance of cloud free mountain/hill tops above 600m: 90%, but occasional cloud possibly covering hills around 600m during the passage of any heavy showers. Fog may develop in the valleys during the early hours, before clearing by mid-morning.

Visibility: Generally very good, but temporarily falling to around 5000m in any showers, and around 100m in any early fog.

Temperature: **Valleys:** Plus 12 Celsius increasing to Plus 22 Celsius during the afternoon.
At 600m: Plus 18 Celsius falling to Plus 11 by the end of the day.
Freezing level: Well above the summits.
